To Whom It May Concern

Subject: International Design Services, Inc.

FabArc Steel Supply, Inc is proud of its relationship with IDS over the past eight plus years of our working together. FabArc regards IDS as one of the very best detailing and connection design firms in the country and seeks out their services on many of our largest and most complicated projects. A few of these projects include:

- Hyundai Motor Manufacturing of America; 14,000 tons
- Holcim Cement; 17,000 tons
- BMW Paint and North Assembly Buildings; 18,000 tons
- Volkswagen Assm, Body, Logistic, and Social Buildings; 13,000 tons
- Global Foundries; 12,000 tons

Over the many years of working together, IDS has displayed the highest skills in detailing and designing through innovative connection solutions, attention to quality and schedule, and timely attention to design revisions. Always demonstrating the highest degree of professionalism and attention to service we make recommendation of IDS to any company seeking the best overall and all inclusive detailing and design company available.

Sincerely,

A handwritten signature in black ink that reads "Tony Pugh". The signature is fluid and cursive, with the first letters of "Tony" and "Pugh" being capitalized and prominent.

Tony Pugh
Executive Vice President
FabArc Steel Supply, Inc.
